

SCANDINAVIA COLLECTION

VOXFLO^R

SCANDINAVIA COLLECTION includes 3 products, which accurately reflect the Nordic design: practical, rational, against affectation and unnecessary waste. Molde is a minimalist with no doubt, while Aarup is more gracious, Almhult is beautiful and sophisticated, represents a democratic and stylish design.

Patterns in the collection can be widely used in a variety of spaces; neutral colours make people slow down and be humble in the beauty of the nature; rich texture contrasts salutes a craftsmanship and recall us to the old times.

SCANDINAVIA Collection is elegant, peaceful, nature-connected, thoughtful and self-discovery, its spirit echos the oriental aesthetics. Not only that, but it is designed to enable designers to play the combination among the products, through the different composition, it may play an impressive concerto both in the space and in our mind.
